- Hard-dollar savings
- Legal peace-of-mind
- Customer service
- Resource coordination
- Proactivity
- Management clarity

Just Say It and Send It™ with BuilderWerks!

Superintendent Robert Ratliff had to alert the gas company to run lines at a particular location. BuilderWerks gathered all relevant information regarding his remarks and placed it in a searchable, sortable row in his spreadsheet database. This is what Robert dictated:

“JOB ADDRESS 27Q VENDOR Gas please run gas undergrounds to this address. HARD DUE DATE next Friday”

| Location | Item # | Punch Item | Contact | Due Date | Hard Due Date | Activity |
|----------|--------|---|-----------------------|----------|---------------|---------------------------|
| 27Q | 2573 | Low-voltage wiring running alongside of high-voltage on exterior wall & cut please advise *** Update 08/31/06: Please provide an update with regards to this item | COMPLETE HOME SYSTEMS | 08/16/06 | 08/16/06 | Install structured wiring |
| 27Q | 2648 | Please run gas undergrounds to this address | SHINING ENERGY CORP. | 09/08/06 | 09/08/06 | N/A |
| 27Q | 2657 | Please run electric underground to this address. | JKL ELECTRIC | 09/05/06 | 0 | N/A |
| 27Q | 2646 | Extend sheathing for the Romex into light box at the second-floor hallways | PC ELECTRIC, INC. | 09/01/06 | | Electric rough |

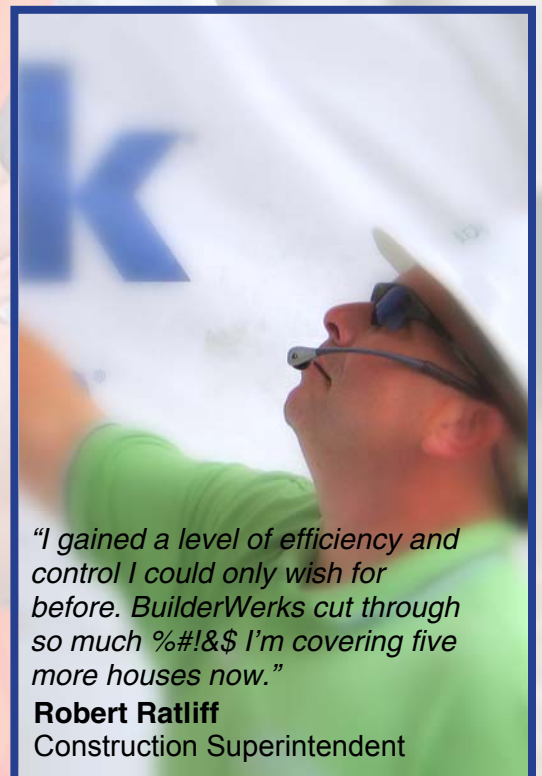

Now, look at the second row in his spreadsheet. That is Robert's dictation, just the way BuilderWerks heard and reported it. The gas company's name, preprogrammed into BuilderWerks' database at initial system setup, filled in the Contact field automatically. No matter what your messages, wherever they're going, to any number of recipients, it is always this easy and accurate to take control of all your job details and activities with BuilderWerks.

- Dictate into a digital recorder throughout the day as you walk your jobsites.
- The recorder transfers your words into a computer, converting your speech into text.
- BuilderWerks then sorts that text and delivers it as detailed messages, automatically, to everyone who needs to know.
- Finally, BuilderWerks documents everything accurately and completely, so nothing will “fall through the cracks” on your jobs ever again!

“Your word should be enough. Now it is.”

– Brig Johnson, CEO, IntoText

IntoText 4508 Old Orchard Drive • Tampa, FL 33618-8654 (813) 968-2972 • www.IntoText.com info@intotext.com

“I gained a level of efficiency and control I could only wish for before. BuilderWerks cut through so much %#!&\$ I’m covering five more houses now.”

Robert Ratliff
Construction Superintendent

BuilderWerks simplifies your day and helps you manage

- Punch items
- Scheduling
- Backcharges
- Reminders
- Documentation
- Corrections
- Customer communications
- Important notes to yourself

In addition, through the optional SYSTRAN® plug-in, BuilderWerks can even translate English into Spanish, French, or other languages, and vice versa, eliminating time-wasting, awkward language barriers.

The May 2007 Atlanta Building News Had This to Say About BuilderWerks!

“With New Tech Tools to Help You Manage Your Business, the Sky’s the Limit”

“**BuilderWerks** taps the advances in speech recognition technology to offer builders...the ability to speak their notes without having to worry about the chore of transcribing...”

“**BuilderWerks** can capture spoken punch items...and then...communicate with vendors, trade partners, employees, and customers.”

“The program...creates a clear trail of every aspect of each job, which can translate to cost savings, both in time and in avoiding problems.”
